

GLOBAL WARMING...

IT'S NOT CAPITALISM, IT'S YOU!

"The problem today is not that capitalism can't function without ruining the environment, but that the public isn't demanding serious action against global warming. A recent Gallup poll found most Americans think the planet is baking—but they rank the issue 14th in importance on a list of 15 concerns."

CONSIDER HOW THE CLEAN AIR ACT & THE CLEAN WATER ACT HAS IMPACTED THE U.S. SINCE 1980:

- ✓ carbon monoxide pollution has been cut by 83%
- ✓ lead pollution has been cut by 91%
- ✓ sulfur dioxide pollution has been cut by 78%

AT THE SAME TIME ...

"TOTAL OUTPUT PER PERSON HAS RISEN BY 77%. WE'VE GOTTEN GREENER AND HEALTHIER AS WE'VE GOTTEN RICHER."

Bottom Line:

CAPITALISM CANNOT CURE
THE "I DON'T CARE" DISEASE
NOR IS IT THE CAUSE OF
ENVIRONMENTAL HARM.
